

## To whom it may concern

Having had the privilege to partner with Dr. Branka Zei, Vox Institute, Geneva since more than 15 years, I take pleasure in providing this personal letter of recommendation.

Indeed, Dr. Branka Zei has personally facilitated a number of group workshops for our clients in "The Power of Voice and Nonverbal Behavior in Speech Communication", as well as in "Dealing with Change". Our Corporate clients and their Executives who have attended her workshops have been most appreciative of her high level of mastery of the subject matter, her scientific focus and ability to empower Managers and Executives to communicate with more impact and effectiveness.

Von Rohr is specialized in Career assessment, development and transition and has sponsored Dr. Branka Zei's Vocal Audits and Coaching in Image Excellence to support Managers and Executives in career transition in positioning themselves more effectively on the market and enhancing their employability. Her coaching has very positively impacted on their positioning.

We take pleasure in warmly recommending Dr. Branka Zei for her excellence in facilitating both group sessions and delivering face-to-face coaching, as well as for her unique personality and dedication to fostering vocal and communication excellence.
