

Vox Institute

Training and Research Institute
Specialised in Speech communication and Emotion psychology

The Power of Voice Making an Impact through Speech Communication

February 28th - 29th
and
September 23rd - 24th

Trainer: Branka Zei Pollermann PhD, VOX Institute, Genève

Objectives:

1. Assess personal strengths and areas of improvement via scientific measurement of communication skills (acoustic and visual analyses)
2. Acquire vocal skills appropriate for speaking at meetings / moderating events / presenting facts and figures
3. Assure congruence between 3 communication channels: verbal, vocal and non verbal (face, gesture, posture, gaze)
4. Structure the content of presentations in a way that raises interest and maintains attention

Programme

- Three main vocal skills that influence the quality of communication: chunking, emphasis, intonation.
- Vocal styles in: public speaking, Face-to-Face communication and at meetings.
- Nonverbal behaviour (facial expressions, gestures, posture, gaze) and its role in: supporting the verbal content of the message and enhancing the speaker's credibility and persuasiveness.
- Verbal aspects: vocabulary (positive and negative lexical networks);
- The Pyramid principle: creating the structure that assures logical coherences of and maintains the audience's attention.

Optional :

- Most efficient rhetorical figures.
- Argumentation strategies (blends of rational and emotional arguments)
- Assessment of charisma in speech communication

Method : interactives training with numerous audio recordings, real-time signal analysis and display of each person's vocal features ; video recordings + visual analysis of nonverbal behaviour. Preliminary reading : [Eloquence](#)

Address: 17 rue des Maraîchers, CH 1205 Genève
Tél.: +41 (0)22 328 76 74 ; Fax: +41 (0)86 079 203 92 17 ;
e-mail: info@vox-institute.ch ; <http://www.vox-institute.ch/>

Direction: Dr. Branka Zei Pollermann

Société Suisse de Psychologie; Association for the Advancement of Affective Computing;
Society for the Study of Artificial Intelligence and the Simulation of Behaviour;
International Speech Communication Association; International Society for Research on Emotion

Pre-work : prior to the course, each participant is asked to send to voice@vox-institute.ch

- A recording of his/her voice in order to have it acoustically analysed. The results are presented on the first day of the course.
- Describe the motivation for enrolment in this course (e.g. difficulties, negative feedback from others, curiosity, general interest in speech communication etc.) and
- Outline personal needs and expectations.

This exercise is confidential. The answers are known only to the trainer and are not kept beyond the duration of the course.

Post Work : 1-2 months after the workshop the attendees are invited to a 1-hour group Zoom meeting. The purpose of the session is to

- Discuss the results of the 2nd voice analysis (audio signals extracted from the video recordings done on the 2nd day of the course)
- Review overall progress
- Identify any further steps for change and maintenance of acquired skills.

Target Audience : Persons who need to improve their speech communication skills by applying modern training methods based on acoustic analysis of their voices and visual analysis of their nonverbal behaviour.

Price : CHF 1150.- (soft drinks and 2 lunches included)
